# Anchoring Point Setting Hardware
锚点设置金具

General Description 概述

The anchoring point setting hardware is a kind of product which makes a suspension connection for clamps on pole, power line steel wire and outdoor wall of building. For example: the adjustable steel hoop, steel wire hanging fixture, outdoor anchoring point setting hardware and middle pole bracket, etc.

锚点设置金具是一种用于夹具在电线杆、电力线钢丝和建筑物室外墙体上进行悬挂连接的产品。例如：可调式钢箍、钢丝吊具、户外锚点设置金具、中杆支架等。

Optic Fiber Cable Clamps
光纤电缆夹

General Description 概述

The optical cable clamps are used to fix the optical cable on anchoring hardware for overhead installation, which includes wedge clamps and stripping type fixture. The wedge clamp is used to put the whole optical cable into it for aerial installation, and stripping type fixture is used to divide the steel wire and fiber cable, so as to make all the tension strength on steel wire.

光缆夹具用于将光缆固定在架空安装的锚固件上，包括楔形夹具和剥线式夹具。楔形夹具用于将整条光缆放入其中进行架空安装，剥线式夹具用于将钢丝和光缆分开，使钢丝上的所有抗拉强度。

Application Scenario 应用场景

Used to hold ø8-12mm diameter ADSS cable 用于固定 ø8-12mm 直径的 ADSS 电缆		used to hold figure 8 cable or ø4-8mm diameter round cable 用于固定 8 字形电缆或 ø4-8mm 直径圆形电缆
